

How to Activate a Blackberry

Overview

This short guide explains how to activate a new blackberry using Enterprise Activation.

1. Turn the Blackberry on to display the main screen. Once you see the main screen, turn wireless on (icon highlighted below)

2. Once the wireless is switched on, the device will say GPRS when it once said off. Now, go into ENTERPRISE ACTIVATION (icon highlighted below)

3. Type in the users details into the Enterprise Activation screen

Enterprise Activation	
Email:	<input type="text"/>
Password:	<input type="text"/>
PIN:	204399FA
<input type="text"/>	

- Once you have typed the user details in, click the trackwheel in and select **ACTIVATE**.

Enterprise Activation	Help
Email: kvk@kkval.com	Select
Password: *****	Clear Field
PIN:	Activate
	Show Symbols
	Change Language
	Close

- The device should start to activate, taking a total of up to 15 minutes to complete.

END
